PROJECT EXPERIENCE

Perfume Recommendation System - Personal Project

Tangerang, Indonesia

Fullstack Developer

Oct 2025 - Jan 2026

- Developed a perfume recommendation web application using Laravel to help users discover fragrances that match their preferences and needs.
- Implemented the Forward Chaining inference method to generate perfume recommendations based on predefined rules and user-selected criteria.
- Designed and developed a responsive and user-friendly interface to enhance the user experience throughout the perfume discovery and recommendation process.

TikTok Creative

Tangerang, Indonesia

Content idea, Content planner

Jun 2025 - Dec 2025

- Developed creative content ideas and concepts for the TikTok account **@_teotalk**, focusing on making theological and Christian topics engaging, relevant, and accessible to diverse audiences.
- Conducted topic and trend research to create informative, audience-focused, and impactful content.

Bank Central Asia

Jakarta Barat

Software Developer Intern

Sept 2024 - Feb 2025

- Designed and developed a new frontend interface for internal systems, improving user experience, visual appeal, and overall website usability.
- Assisted in the migration of internal websites to a new system, ensuring data integrity and the optimal performance of all features and functionalities.

Focus on Family Indonesia

Tangerang, Indonesia

WordPress Developer Intern

Jan 2024 – Jun 2024

- Contributed to the design and development of the FOFI website, focusing on improving UI/UX and overall user experience.
- Implemented and customized a WordPress-based website, including theme, content, and feature modifications to meet business and design requirements.
